Prompt

Enhance · 2

A seamless tileable repeating pattern of stylized botanical leaves and small blossoms, flat modern vector style, balanced sage-green and cream palette, evenly spaced motifs, no visible seams.

seamless floral pattern | geometric tile pattern | abstract terrazzo pattern

Generate ↑ 16

Your seamless pattern, generated from a prompt

Describe the motif, style, colors, and density — this pattern maker generates a seamless tileable pattern in seconds.

How to Make a Pattern with the tool

Three steps from a written idea to a seamless pattern. No vector software, no manual tiling.

1

Describe your pattern

Write the motif, style, palette, and density. The more specific your prompt, the closer the pattern maker lands to the pattern in your head.

2

Pick a model and generate

Choose a supported model and run it. The tool renders a seamless pattern from your prompt in seconds and shows it in the workspace.

3

Refine by re-prompting

Not quite right? Adjust the wording — a different motif, a tighter repeat, a new palette — and generate the pattern again until it fits.
